PLEASE FAX REQUEST FOR PRICING TO 360-834-3837

## COURTSPO RTS GYM FLOOR SANDING

COURTSPO RTS uses large riding drum sanders to remove the existing gym finishes and sand the floor to bare wood. This process takes approximately one to three days depending on the size of the gym floor and the number of previous coatings. The floor is sanded using 36, 60, 100, and 120 grits to a smooth and uniform surface. Then the floor is cleaned, walls are wiped, and the floor is sealed.

## COURTSPO RTS DEFENDER™ COATING SYSTEMS

**AQUADEFENDER™ WOOD FLOOR FINISH** is the most durable coating system available (when mixed with CROSSLINX™). It is a premium 2-component (optional) waterborne sport floor finish specifically designed for high gloss and durability. It can also be used as a one-part waterborne gym finish if mixing is not desired. AQUADEFENDER™ meets or exceeds VOC requirements of ALL federal, state, and regional regulations in the United States <250 g/L. And because AQUADEFENDER™ dries in 2-3 hours so multiple coats can be achieved in one day, which means less downtime for your court floor. Another benefit when using AQUADEFENDER™ is that it will not discolor white painted logos or lines on your basketball gym as oil-modified coatings. AQUADEFENDER™ will dry crystal clear so your white colored paints remain bright and vibrant! Recommended - One seal coat using AQUADEFENDER™ PENETRATING SEAL followed by three coats of AQUADEFENDER™ WOOD FLOOR FINISH.

COURTSPO RTS offers an alternative oil-modified sealer called AQUADEFENDER™ FAST DRY SEAL that can be used to seal the bare wood with the “look” of an oil modified seal, but compatible with the waterborne AQUADEFENDER™ WOOD FLOOR FINISH.

**POLYDEFENDER™ WOOD FLOOR FINISH** is a high solids, superior oil-modified polyurethane finish designed to provide unsurpassed durability, gloss, and chemical resistance for high traffic sport floors. POLYDEFENDER™ utilizes “AAET” (Advantage Adhesion-Enhancement Technology), which minimizes questionable intercoat abrasion and/or problems with contamination. The unique formulation has exceptional gloss and outstanding application properties. Solids – 50%, Dry-time 16-24 hours recoat, VOC <450 g/L. Recommended - Two seal coats using POLYDEFENDER™ PENETRATING SEAL followed by TWO coats of POLYDEFENDER™ WOOD FLOOR FINISH.

## COURT FLOOR DESIGN

COURTSPO RTS provides worldwide gymnasium floor layout and design. Our design services are recognized amongst the NBA, WNBA, ABA, NCAA, NAIA, and thousands of high schools, churches, and athletic facilities. COURTSPO RTS can provide you with full color court floor renderings in full detail that can be used by you and your athletic department in making final decisions on your court floor layout. Our court floor renderings can be duplicated onto your court floor in exact detail to give you a powerful marketing presentation that is visible to all your fans. And if you have already hired a gym floor contractor COURTSPO RTS can create the computer generated stencils for your contractor.

Are you interested in hiring COURTSPO RTS to design your gym floor (if no skip to the "GAME LINES" section)? \_\_\_\_\_

Design rates - One (1) design \$100.00, two (2) designs \$175.00, three (3) designs \$250.00, four (4) designs \$300.00, five (5) designs \$350.00.

## TEAM COLORS

Team colors: \_\_\_\_\_ Team mascot: \_\_\_\_\_

Do you have a mascot on file that you would like to have painted on the gym floors? \_\_\_\_\_

Please email your mascot to [service@courtsportsinc.com](mailto:service@courtsportsinc.com) in Adobe Illustrator format

## SOLID PAINTED AREAS

Are you interested in solid painted basketball borders? (if yes explain the size and color of the border) \_\_\_\_\_

\_\_\_\_\_
